Onyx Pro

ONYX Pro
As intuitive, as attractive

Creative design for demanding baristas

Born from a heritage of excellence in espresso machines and a history of pursuing innovative solutions that push coffee technology further, we are very proud to introduce ONYX - the professional-grade premium espresso machine that defines attainable luxury and lets you express your own personal style.

Combining insight from experienced baristas with proven brewing technology and energy-saving software we have created a machine that is as smart and reliable as it is elegant and beautiful.

We realize that every serving space is unique, so we have designed it to be easily customized through easily changeable graphic slots, custom inserts in the exterior panels, or by custom-designed side and back LEDs.

Features

- Multi independent boilers
- Barista lighting on group heads
- No burn insulated steam arms
- Auto froth steamer with pulse and auto
- Raised group heads
- Built in espresso cup trays
- Side and back panel LED lighting
